NOTE FOR THE DIRECTOR

One of the more productive USIB Committees has been the Scientific and Technical Intelligence Committee (STIC). It has clearly "paid its dues" and is composed of scientists from around the Community who have played key roles not only on the Committee, but within their home organizations.

On Wednesday, 3 March, a number of those involved will be here in the Agency for day-long briefings and there will be a cocktail party in the Executive Dining Room from 1730 to 1930 hours. You have been invited to the cocktail party.

If your schedule permits, I am sure it would be most appreciated if you join for the occasion, meet some of the people involved, and commend the work being done.

Attached is some detail on all this.
